

Biofield Tuning

at **626 Wellness Community**
with **Tomoko Ozawa, PhD**

Biofield Tuning is sound therapy designed to induce deep relaxation, enhance clarity, and improve energy flow within your body's electrical system. It views physical and emotional symptoms as results of dissonance in the biofield, often caused by suppressed emotions. These energetic blockages can lead to various symptoms, behaviors, and thought patterns. During a session, the practitioner uses tuning forks to identify and harmonize areas of dissonance, promoting coherent frequencies.

Who Can Benefit from Biofield Tuning

Conditions that may be improved by Biofield Tuning include*: pain, anxiety, adrenal stress, digestive issues, menstrual issues, depression, fibromyalgia, addiction, fear/phobias, panic attacks, vertigo, PTSD, migraines/headaches, restless leg syndrome, fertility, “stuckness”, and more. Tuning may also bring deep relaxation, increase energy level, and enhance creativity and intuition.

*These claims are based solely on anecdotal evidence. Biofield Tuning is not intended to be used to diagnose, cure, treat, or prevent any medical problem or psychological disorder nor is Biofield Tuning a substitute for seeking professional health care advice and services.

Pricing

Initial Appointment \$250/75 min

Returning clients \$220/60 min

Package of 3 - \$600

Package of 5 - \$900

A more profound improvement can be achieved with regular tuning. For new clients, I recommend scheduling 3-5 sessions, each spaced 1 week apart to build a solid foundation.

Tomoko Ozawa, PhD,
Biofield Tuning practitioner,
